**DECONCENTRATION POLICY**

As required by Section 513 of the quality Housing and work Responsibility Act (QHWRA), the Housing Authority's Admission Policy must be designed to provide for poverty and income mixing by bringing higher income tenants into lower income developments and lower income tenants into higher income developments. This policy is developed in accordance with QHWRA Section 513.

In order to comply with this regulation, the Housing Authority will take steps to analyze its public housing stock and tenant incomes. The Authority will compare the relative tenant incomes and occupancy characteristics of each development as they relate to the census tracts where the developments are located and make adjustments to deconcentrate those areas if necessary based on the following plan:

**Rent Incentives:**

In order to encourage higher income applicants into lower income areas and thereby help to achieve a deconcentration of poverty, the Authority has adopted and will continue to utilize ceiling rents. Ceiling rents have and will continue to encourage many working families to move into public housing. Ceiling rents also help to keep residents who obtain a job to remain in public housing instead of being forced to move out. The Housing Authority will also work with Senior Citizen agencies, rehabilitation agencies, and other social agencies to encourage lower income applicants to move into any developments that may be designated as high income developments.

**Preferences:**

Working families are given preferences over non-working families to encourage them to move into public housing. Since most of our developments consist of residents in the lower income category, this will allow the Authority to place more working families in our developments.

**Other:**

The Housing Authority will determine annually whether there exists a severe concentration of higher income or lower income families within a development as it

relates to census tracts in which the developments are located. If severe concentration is found to exist, and there are available units in those developments, the following actions may be taken: the Housing Authority may choose to first offer the units at developments with the most severe concentration of higher/lower income families to qualified applicants whose incomes will help to balance the incomes of the development to achieve proper income mixing. If there is no concentration problem, the Authority will offer the available apartment to the next qualified applicant in accordance with the Admissions and Continued Occupancy Policy.
